

The unique water-based formula that prevents weld spatter from sticking.

- Safe, water-based formula
- Non-toxic
- Oversized, E-Z Spray Nozzle is ideal when wearing welding gloves
- Does not contain CFCs, 1,1,1 trichloroethane or chlorinated solvents
- Does not contain silicone
- Paint compatible
- Eliminates the need for chiseling, grinding, or brushing after welding
- Nonflammable
- Excellent stainless steel spatter protection spray application

General Information

Anti-Spatter spray is a non-silicone, water-based material which casts a liquid film. Many competitors' anti-spatter sprays are based on chlorinated solvents which are ozone-depleting or suspected carcinogens. The oversized spray button is ideal when applying product while wearing welding gloves.

Material Safety Data Sheets are available upon request.

Properties

Appearance:

Opaque, Milky

Odor:

Bland

pH:

8.75

Specific Gravity @ 77°F:

0.987

Spray Pattern:

Wide. Fine Mist

Anti-Spatter is available in this size:

13 oz. (369 grams) aerosol

Part No. 02116
