

# POWERBLAST DUSTER

**The nonflammable duster for removing contaminants, dirt, dust and other soils with the super blast.**

- Twice the spray power of typical dusters
- Superior cleaning ability
- Excellent for cleaning delicate parts and electronic components in hard to reach areas
- Nonflammable
- Safe on plastics
- No residue
- Moisture free
- Nonabrasive
- Odorless
- VOC Free

**PowerBlast Duster is available in this size:**

12 oz. (340 grams) aerosol

05712

**Typical applications where PowerBlast Duster can be used:**

- |                             |                          |
|-----------------------------|--------------------------|
| ● Avionics                  | ● Medical Devices        |
| ● Computers                 | ● Office Equipment       |
| ● Data Processing Equipment | ● Optical Cleaning       |
| ● Electronic Equipment      | ● Photographic Equipment |
| ● Film Negatives            | ● Printers               |
| ● Laboratory Instruments    | ● Typewriters            |
| ● Magnetic Tape Heads       |                          |

## General Information

Power Blast Duster is a moisture-free compressed gas that provides twice the spray power of typical dusters for removing dirt, dust and other contaminants from delicate assemblies and electronic components. With the pinpoint extension tube, Power Blast Duster can easily remove particles from those hard-to-reach spaces. It delivers a super blast to remove debris, and it won't leave a residue. Power Blast Duster is nonflammable and safe on plastics. Power Blast Duster does not contain Volatile Organic Compounds (VOCs).

Material Safety Data Sheets are available upon request.

## Properties

### Flash point:

None

### Boiling Point:

-15.7°F

### Vapor density (air=1)

@ 77°F:

3.6

### Specific gravity (water=1 @ 77°F):

1.21

### Solubility in water @ 77°F/14.7 psi:

0.15%

### Appearance:

Clear, colorless  
liquified gas

### Odor:

Slight ethereal
