

# TRIFREE BRAKE CLEANER

**The heavy-duty solvent alternative to chlorinated solvents for removal of brake fluid, grease, and oil.**

- Instantly removes brake fluid, grease, and oil
- Improves brake performance
- Helps stop disc brake squeal
- No ozone depleting chemicals
- Fast evaporating
- Compliant to California V.O.C. regulations
- Does not contain chlorinated solvents
- No rinsing. No residue

**TriFree Brake Cleaner is available in this size:**

15 oz. (425 grams) aerosol      03620

**Typical applications where LPS TriFree Brake Cleaner can be used:**

- Brake backing plates
- Brake cylinders
- Brake drums
- Brake linings
- Clutch assemblies
- Disc brake pads
- Electric motors
- Generators
- Springs
- Starters
- Wheel bearings

## General Information

TriFree Brake Cleaner is a heavy-duty, solvent alternative to chlorinated solvents that removes brake fluid, oil, and grease. With its high solvency and powerful jet spray, TriFree leaves brakes easier to service and improves brake performance. TriFree can be applied without disassembling the brake unit, and it leaves no residue for faster brake maintenance. TriFree does not contain perchloroethylene or methylene chloride. TriFree is compliant to California V.O.C. regulations. TriFree is extremely flammable, so it should not be used on equipment in operation, and equipment should be allowed to dry completely before it is restarted. TriFree is fast drying, so equipment downtime, is minimized.

Material Safety Data Sheets are available upon request.

## Properties

**Flash Point:**  
0°F (-18°C)

**Specific Gravity:**  
0.745

**% Non-volatiles:**  
100 ppm maximum

**Propellant:**  
Carbon Dioxide

**KB value:**  
>124
